## 260 REEF Piero Lissoni

System of seating units composed of armchairs, sofas and a bench, each of which hides its own unique movements. The armchair with fixed armrests is swivel (the armchair can be fixed through a knob). The sofas with armrests, available in three widths, allow two different back positions (high or low). The sofas with no armrests, available in two widths, have the end-parts of the seat which can be tilted at two different positions, converting them into supports/armrests. The bench has a suitable seat for a chaise-longue configuration; one end part can be tilted at four different positions to be used as headrest, the other end part can be tilted in the middle and used as a support for the legs. All of the units have a visible frame made of painted steel glossy or mat aluminium colour. Steel internal frame, upholstery in differentiated density CFC-free polyurethane foam and polyester padding. Covers in removable fabric or leather. The seating system is completed with a cube/ottoman on castors, upholstered with a special glossy fabric in the colours black or white.
