

Charlotte Perriand® **VENTAGLIO**

511

511 VENTAGLIO Charlotte Perriand

Designed 1972

Table in natural or black stained oak. The table top is composed of fourteen staves; the base has three legs. The special configuration of the top and the leg placement allow dynamic and flexible table usage, also by a greater number of persons with respect to a traditional configuration.

Identifying marks and production numbers

Each piece of furniture in the "Cassina I Maestri" Collection is indelibly marked with:

- the signature of the Author, whose copyright belongs to his heirs or trustees, the use of which has been granted exclusively to Cassina and which in the form of a trade mark, certifies the authenticity of the furniture;
- the "Cassina I Maestri" logotype, which incorporates the Author's emblem as used by him as identification on his drawings;
- the production number which serves to place the item in the chronology of production, and tallies with the "Identity Card" (which bears the same number). This shows that a final quality check has been carried out, and allows the Heirs' control as far as compliance with copyright is concerned. The red arrow on the drawings shows where the trademark and the serial number are branded.
